www.caba.org

The Continental Automated Buildings Association is a not-for-profit industry association that promotes advanced technologies for the automation of homes and buildings throughout the world.

CABA provides more information about integrated systems and automation in homes and buildings than any other source.

"I want to congratulate CABA for doing a great job over the last 25 years. CABA has been a leader in both the home and building markets through both its research and its industry outreach. Everything that the organization does is a valuable resource to our company and many others."

Steve Harvey, Strategy Analytics

Joining CABA means affiliation with an organization that is dedicated to advancing technology and integrated systems in home and buildings, creating opportunities for our members' business activities and serving as the preferred global source of information, knowledge and networking for key stakeholders.

"CABA has been instrumental in bringing us together with other organizations with similar interests, to form a common bond in order to understand where the industry is going. CABA undertakes specialized research and is an excellent source of information, through its Web site and various research studies and projects."

Chellury (Ram) Sastry, Samsung Electronics

RESEARCH

CABA has undertaken millions of dollars of cutting-edge collaborative market research on intelligent buildings and smart homes through its cross-industry network of leading organizations. Save time and money by accessing the the CABA Research Library.
