## **SIMON JAMES OF HONEYWELL LIMITED APPOINTED TO CABA BOARD OF DIRECTORS**

July 16, 2002

The Continental Automated Buildings Association (CABA) is pleased to announce the appointment of Simon James of Honeywell to the CABA Board of Directors. Honeywell Limited was previously represented by Nick Price.

In addition to his work on the CABA Board, Mr. James is a member of the Intelligent & Integrated Buildings Council and chairs CABA's Intelligent & Integrated Conference Advisory Committee.

CABA is a nonprofit industry association that provides information, education, and networking to help promote advanced technologies for the automation of homes and buildings in North America.

"We are very pleased delighted to welcome Mr. James to CABA's Board," said Ronald J. Zimmer, President & CEO of CABA. "His work at Honeywell and his industry expertise from multiple years of high technology marketing and engineering efforts, will ensure that both home and large building automation remain central to our organization."

Simon James has had more than 15 years of experience with Honeywell in the Building Automation and Controls industry in various marketing and engineering roles.

Simon's current role is the marketing leader for Building Automation in Honeywell's Automation and Control Solutions (ACS) Service business based in Minneapolis MN. He has global product management responsibilities for Integrated Building Automation systems. He is also the chief technology leader for this business.

Prior to his current position, Simon was Marketing Manager for Honeywell's Software Development Center. This group develops and markets advanced Management and Control systems for the Building Automation, Security, and Industrial markets. These products include Enterprise Buildings Integrator, Excel Security Manager, Digital Video Manager, SCAN3000 and Plantscape.

Simon's previous roles include leadership for Honeywell's building systems architecture, where he led a number of software development teams and worked on various security, building automation, marine and industrial control projects.

Simon has a Bachelor of Engineering degree in Electrical Engineering from Wollongong University, NSW, Australia. He also received a Graduate Certificate in Software Engineering from the University of Technology, Sydney, Australia.

**About CABA**

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at [www.caba.org](http://www.caba.org).
