ZIGBEE ALLIANCE SHARES THEIR VISION FOR WIRELESS CONTROL AT CABA'S CONNECTED@HOME 2005 CONFERENCE & EXPO

May 19, 2005

CABA's Connected@Home 2005 Conference & Expo is pleased to announce the ZigBee Alliance as the first Diamond Sponsor for the inaugural event being held this October 3-5 at the Mandalay Bay Resort and Casino in Las Vegas.

The Connected@Home Conference & Expo will quickly become the de facto Fall event for companies that are developing hardware, software and services that will enhance the digital lifestyle of connected consumers. By working with alliances and associations to facilitate collocation of their Fall meetings - this event offers a single venue with multiple benefits for attendees. An additional component of the event is CABA's waiving of delegate fees and offering access to both the expo and conference sessions for free to all delegates who register prior to June 30.

The ZigBee Alliance is an association of companies working together to enable reliable, cost effective, low-power, wirelessly networked, monitoring and control products based on an open global standard. The ZigBee Alliance is a rapidly growing, non-profit industry consortium of leading semiconductor manufacturers, technology providers, OEMs, Integrators, Application Developers and end-users worldwide. Membership is open to all.

Bob Heile, the ZigBee Alliance's chairman stated: "CABA's Connected@Home2005 is the perfect venue for our Alliance to display and discuss the latest developments of the technology. With membership increasing and our specification ratified, we felt that collocating at this event provided the right atmosphere and networking opportunities to maximize the exchange of information on the possibilities of the "connected home".

CABA's President & CEO, Ronald J. Zimmer said: "CABA appreciates the support the ZigBee Alliance brings to our event. We look forward to a successful collaboration of workshops, event sessions and exhibition."

About CABA

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at www.caba.org.
