ANDREW WILCOX OF TRANE JOINS CABA BOARD OF DIRECTORS

December 12, 2005

The Continental Automated Buildings Association (CABA) is pleased to announce the appointment of Andrew Wilcox of Trane to its Board of Directors.

"Andy's strong leadership skills and industry expertise make him an excellent addition to our Board," said Ronald J. Zimmer, CABA President & CEO. "His solid approach fits perfectly with our culture, and we're looking forward to his contributions to our association."

Andrew Wilcox is the product marketing leader for Trane's Global Control Systems. Andy joined Trane in 2003, and is responsible on a global basis for the product management, marketing, and technical support for Trane's building automation products.

Prior to coming to Trane, Andy worked for Imation Corporation in business development roles to broaden Imation's business into hardware product offerings and IT storage consulting services. Andy started his career with 3M where he held various leadership roles in product development, manufacturing, and product management. While at 3M, Andy received two Golden Step awards related to product innovation in data storage.

"I am tremendously pleased and honored to have been selected to serve on CABA's Board," stated Wilcox. "CABA offers industry an excellent opportunity to collaborate and devise new methods to share new research, information, trends and analysis in order to enhance the profitability of our sector."

Andy has a bachelor's degree in applied physics from the University of Wisconsin and an MBA from St. Thomas University. He currently serves on the board of directors for industry associations, including LonMark International.

About CABA

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at www.caba.org.
