MOTOROLA JOINS CABA BOARD OF DIRECTORS

July 12, 2007

The Continental Automated Buildings Association (CABA) announced today the addition of Motorola, Inc. to its Board of Directors. CABA is a trade association that promotes advanced technologies for integrated systems and the automation of homes and buildings.

Ray Sokola, Chief Technology Officer (CTO) for Motorola's Connected Home Solutions business, will represent Motorola on CABA's board. In this position, he leads the Connected Home Solutions technology team to drive profitable growth through visible technology and innovation leadership, IP creation and timely integration of new technologies that create new business opportunities.

Sokola previously held the position of corporate vice president and chief technology officer of the Integrated Electronics Systems Sector of Motorola.

Prior to that role, he was general manager of Motorola's Telematics Group, which supplied the in-vehicle equipment for OnStar and other security and information services for drivers. In addition, he was general manager of the ceramic filter business, and spent his first 10 years at Motorola developing cellular mobile and handset technology.

Sokola holds a degree in electrical engineering from the University of Delaware. A recipient of 16 patents, he has been awarded three Motorola Patent of the Year Awards and received Motorola's Distinguished Innovator Award.

"We are delighted to welcome Ray Sokola to CABA's Board," said Ronald J. Zimmer, President & CEO of CABA. "His 25 years of experience at Motorola will ensure that our organization is informed by a holistic information technology perspective."

About CABA

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at www.caba.org.
