TONY WAN OF CISCO APPOINTED TO CABA BOARD

February 26, 2009

The Continental Automated Buildings Association is pleased to announce the appointment of Tony Wan from Cisco, Inc. to its Board of Directors.

Wan is a marketing director at Cisco and currently leads service provider marketing for consumer and emerging video solutions. Since joining Cisco in 1999, he has advanced Cisco's market position in video, home networking, and Internet Protocol (IP) communications, including product leadership roles for Linksys consumer products, Cisco IP Phones, and Cisco routers.

"We are pleased to welcome Tony Wan to the CABA Board," said Ronald J. Zimmer, CABA President & CEO. "His diverse background and experience will provide an excellent complement to the talents of our existing Board members which oversee CABA in its role as the leading research and information source for the home and building automation industry."

Prior to Cisco, Wan held multiple product management and engineering positions at Nortel's mobile wireless division. He is a patent holder in the area of fixed mobile convergence, and a public speaker at industry events such as Supercomm and the Consumer Electronics Show.

Wan holds a BSE degree in Computer Engineering from the University of Michigan at Ann Arbor.

Cisco Systems has been represented on the CABA Board since 2002, most recently by Shalabh Goel, who has moved a different division.

About CABA

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at www.caba.org.
