David Dollihite of Direct Energy Appointed to CABA Board

March 24, 2009

The Continental Automated Buildings Association announced today that David Dollihite of Direct Energy has been named to the association's Board of Directors. CABA is a nonprofit industry association that provides information, education, and networking to help promote advanced technologies for the automation of home and buildings.

David Dollihite is Vice President of Product and Business Development at Direct Energy, a North American leading retailer of energy and related services. He is focused on the development of products and services for residential energy conservation and efficiency markets. He brings 20 years of experience to his role, eight in the energy industry and 12 years in related energy and chemical industries.

Dollihite was recently appointed Chair of CABA's Connected Home Research Council and previously served as its Vice-Chair.

"We are elated to welcome David Dollihite to CABA's Board of Directors," stated Ronald J. Zimmer, CABA President & CEO. "His industry expertise will contribute valuable expertise and insight to our organization's leadership."

Dollihite replaces Robert (Bob) Huggard from Direct Energy who had served on the CABA Board since 2004.

About CABA

The Continental Automated Buildings Association (CABA) is a not-for-profit industry association dedicated to the advancement of intelligent home and intelligent building technologies in North America. The organization is supported by an international membership of nearly 400 companies involved in the design, manufacture, installation and retailing of products relating to home automation and building automation. Public organizations, including utilities and government are also members.
