## **Dr. Jack Jachner of Alcatel-Lucent Appointed to CABA Board**

January 19, 2011

CABA is pleased to welcome Dr. Jack Jachner of Alcatel-Lucent to its Board of Directors. CABA is a trade association that promotes advanced technologies for integrated systems and the automation of homes and buildings.

"We are pleased to welcome Dr. Jachner to our Board of Directors," said Ronald J. Zimmer, CABA President & CEO. "He is a highly experienced executive who has significant knowledge of the integrated systems in the intelligent building space. We look forward to working with him to strengthen our association and drive strong growth in the sector."

Dr. Jachner brings more than 20 years of telecommunications research and development experience to his current position in strategic solutions development at Alcatel-Lucent. In his current role, Dr. Jachner is responsible for the company's enterprise solution technology directions and partnerships.

He has served in a variety of positions in Alcatel then Alcatel-Lucent, including operational management in the Enterprise Communication Server business unit, in the Research and Innovation and in the CTO. Previously, Dr. Jachner has held positions at Tellabs, the Atlantic Aerospace Electronics Corporation (AAEC), and Bell Northern Research.

Dr. Jachner holds a Bachelor of Science degree in electrical engineering from McGill University, and a Master of Science degree in data networking and Doctor of Science degree in digital signal processing from Massachusetts Institute of Technology (MIT). He is a frequent speaker at industry conferences and holds a number of patents in the area of communication applications.

"It is a privilege to contribute to the industry and help grow our marketplace through CABA," stated Dr. Jachner. "CABA is a key organization dedicated to research and to the promotion of advanced integrated technologies in the large building system integration sector."

**About CABA**

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at <http://www.caba.org/>.
