## **CABA Appoints Jeff Hamilton of Ingersoll Rand to Board of Directors**

October 11, 2011

CABA is pleased to welcome Jeff Hamilton of Ingersoll Rand to its Board of Directors. CABA is a trade association that promotes advanced technologies for integrated systems and the automation of homes and buildings.

"We are pleased to welcome Jeff Hamilton to our Board of Directors," said Ronald J. Zimmer, CABA President & CEO. "He is a highly experienced executive who has significant knowledge of the integrated systems in the intelligent building space. We look forward to working with him to strengthen our association and drive strong growth in the sector."

Hamilton currently serves as the Integrated Solutions Program Manager for the Controls Group at Trane, which is now part of Ingersoll Rand. He is responsible for strategic direction and development, marketing, and management of controls-related products and programs that complement core Trane-brand control products and help Ingersoll Rand deliver integrated, intelligent commercial building control systems.

Hamilton has spent the past 25 years in engineering, marketing and business development for the commercial building automation system industry. He began his career with Honeywell, Inc., has worked for Johnson Controls, Inc., and spent several years with McQuay International, leaving as Director of Control Systems Technology and Product Management.

Hamilton holds both a Bachelors Degree in Mechanical and Industrial Engineering and a Masters Degree in Business Administration from the University of Minnesota. He is a member of the American Society of Mechanical Engineers (ASME), the Institute of Industrial Engineers (IIE) and the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE).

"I am absolutely excited to have the opportunity to contribute to our industry through CABA Board membership," stated Hamilton. "It is my intention that Ingersoll Rand's contributions will further strengthen and improve the effectiveness of CABA so that the industry can reach even greater heights."

### **About CABA**

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at
