Christine Boles of Intel Corporation Appointed to CABA Board

March 17, 2015

The Continental Automated Buildings Association (CABA) announced today that Christine Boles of Intel® Corporation, has been appointed to its Board of Directors. CABA is a nonprofit industry association that provides information, education, and networking to help promote advanced technologies for the automation of homes and buildings.

"I am very pleased to welcome Ms. Boles as a director," said Ronald J. Zimmer, CABA President & CEO. "Her experience in both the intelligent building and connected home sectors will contribute significantly to helping CABA achieve its strategic objectives."

Christine Boles is the Director of Smart Building Solutions in Intel's Smart Home and Building Division where her organization is responsible for Intel's smart building IOT business including product and ecosystem strategies.

Boles has over 20 years of defining, developing, delivering and enabling customers and ecosystem for Intel based solutions in a broad range of embedded and internet of things applications across many industries such as communications, storage, retail, and imaging and now commercial buildings.

"I am honored to have the opportunity to contribute to CABA's development and expansion," said Boles. "I look forward to advancing both the intelligent building and the connected home marketplace by helping CABA lead collaborative initiatives through my role on their board in conjunction with other leading industry stakeholders."

Boles holds a Bachelor of Science in Electrical Engineering from University of Cincinnati and an MBA from Arizona State University.

About CABA

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at <http://www.caba.org/>.
