## Leviton Manufacturing Company, Inc. Joins CABA Board of Directors

October 7, 2015

The Continental Automated Buildings Association (CABA) is pleased to announce that Leviton Manufacturing Company, Inc. has joined the CABA Board of Directors. Leviton will be represented by Bob Becker on the CABA Board.

Becker is the Executive Vice President and General Manager of Leviton's Residential Business Unit. He is responsible for the overall business strategy, operations and profitability globally. His responsibility includes plant operations in North Carolina and Baja Mexico, and he plays an active role in China where he spent two years on assignment.

"CABA is pleased to welcome Leviton to its Board of Directors," said Ronald J. Zimmer, CABA President & CEO. "Our organization is glad to welcome a company that is renowned for being actively involved with builders and installers, while also encouraging engagement at the consumer level."

Leviton provides a comprehensive range of solutions to meet the requirements of residential, commercial and industrial buildings, and specifically caters to intelligent environments by way of its electrical wiring devices, network and data center connectivity solutions, lighting energy management systems, and security and automation applications. The firm sells through distribution, OEM, international and retail channels.

"I am very honored to be joining the CABA Board, which is focused on advancing both the connected home and intelligent buildings sectors," said Becker. "CABA is well recognized as a thought leader, driving market research and networking within these joint industries, and Leviton is excited to actively participate at the organization's highest levels."

Prior to joining Leviton Manufacturing Co, Inc., Becker worked as a Management Consultant at Pittiglio, Rabin, Todd & McGrath helping companies achieve growth and profitability in a wide range of industries. He has also held positions with Duracell, Alcan, and Texas Instruments in engineering, product management and business development.

Becker has a B.S. in Chemical Engineering from the University of Rochester, a M.S. in Materials / Ceramic Science from Rutgers University, and a M.B.A. from Northeastern University. He is a past member of the Executive Board of Directors for the NEMA Lighting Systems Division.

### About CABA

The Continental Automated Buildings Association (CABA) is a leading industry association that promotes advanced technologies in homes and buildings in North America. More information is available at
