

## **Ecorithm Appointed to CABA Board of Directors**

May 31, 2016

The Continental Automated Buildings Association (CABA) is pleased to welcome Ecorithm, a software-as-a-service (SaaS) provider of highly accurate, scalable and automated fault detection and diagnostics (FDD) solutions for commercial buildings, to the CABA Board of Directors. CABA is a leading non-profit industry association that provides information, education, and networking forums to help promote advanced technologies for the automation of homes and buildings.

Ecorithm will be represented on the CABA Board by Matt Kastantin, who is Vice President of Business Development. Kastantin leads the company's business development strategy and execution with revenue responsibility across Ecorithm's direct sales, value-added reseller and solution partner channels. As a veteran of early stage companies providing smart building solutions, Kastantin has spent the past decade helping companies refine their solutions and scale their business models through aggressive revenue growth from both direct customer acquisition and channel development.

"I am very excited to be able to serve on CABA's Board," said Kastantin. "CABA is known for its thought leadership in advanced building automation and I am honored to be associated with this prestigious group. I look forward to collaborating with my fellow Board members in pursuit of our shared vision of accelerating the reality of truly smart buildings through advanced technologies."

"On behalf of the Board of Directors, we are very pleased to welcome Mr. Kastantin to the Board," stated Ronald J. Zimmer, CABA President & CEO. "His tremendous industry experience—particularly with early stage innovators in the building automation space—brings additional depth and expertise to our Board of Directors. We look forward to his anticipated contributions to our organization."

Kastantin's prior experience includes management consulting and information management software and federal service. He holds a Bachelor's degree from Dartmouth College and an MBA from The University of Virginia's Darden School.

## **About CABA**

The Continental Automated Buildings Association (CABA) is an international not-for-profit industry association dedicated to the advancement of intelligent home and intelligent building technologies. The organization is supported by an international membership of over 330 organizations involved in the design, manufacture, installation and retailing of products relating to home automation and building automation. Public organizations, including utilities and government are also members. CABA's mandate includes providing its members with networking and market research opportunities. CABA also encourages the development of industry standards and protocols, and leads cross-industry initiatives. More information is available at [www.caba.org](http://www.caba.org).
