

Cyber Power Systems (USA), Inc. Joins CABA Board of Directors

November 6, 2017

The Continental Automated Buildings Association is pleased to announce that Cyber Power Systems (USA), Inc. has joined its Board of Directors.

CABA is a nonprofit industry association that provides information, education, and networking to help promote advanced technologies for the automation of homes and buildings.

"The expertise and passion of our Board puts CABA in an incredibly strong position," stated Ronald J. Zimmer, CABA President & CEO. "We are consequently excited to have the opportunity to work with Cyber Power Systems (USA), Inc. to advance our shared goals for a strengthened home and building systems industry."

Cyber Power Systems (USA), Inc., designs and manufactures high-quality power protection and management products, including uninterruptible power supply (UPS) systems, power distribution units (PDUs), surge protectors, mobile charging devices, connectivity devices and Fiber-to-the-Premise (FTTx) backup power solutions.

The firm will be represented on the CABA Board by Daniel Niewirowicz who leads the Special Projects Group at Cyber Power Systems (USA), Inc.

Niewirowicz drives strategic product development; automation and the Internet of Things (IoT) at Cyber Power Systems (USA), Inc. and is responsible for development of power management solutions across the critical data path from the data center to edge devices for building automation.

Niewirowicz has 30 years of experience in the built environment sector. From building envelope to the latest smart facility integrations, he has extensive experience in electromechanical systems and has managed multi-million dollar MEP projects in educational, medical and commercial environments.

“I’m excited and gratified to be appointed to CABA’s Board,” said Niewirowicz. “CABA offers the industry tremendous value through its rich portfolio of research and industry networking services and I am absolutely ecstatic to contribute to its efforts.”

About CABA

The Continental Automated Buildings Association (CABA) is an international not-for-profit industry association dedicated to the advancement of intelligent home and intelligent building technologies. The organization is supported by an international membership of over 330 organizations involved in the design, manufacture, installation and retailing of products relating to home automation and building automation. Public organizations, including utilities and government are also members. CABA's mandate includes providing its members with networking and market research opportunities. CABA also encourages the development of industry standards and protocols, and leads cross-industry initiatives. More information is available at www.caba.org.
