

Huawei Enterprise Business Group Joins CABA Board of Directors

September 18, 2018

The Continental Automated Buildings Association (CABA) is pleased to welcome Huawei Enterprise Business Group to its Board of Directors.

CABA is a nonprofit industry association that provides information, education, and networking to help promote advanced technologies for the automation of homes and buildings.

"With the addition of Huawei, CABA continues its strong tradition for representation from the information and communications technology sector," said Ronald J. Zimmer, CABA President & CEO. "We are pleased to welcome such a respected company to our board."

Huawei Enterprise Business Group is a one-stop industry solutions partner for customers in the global enterprise market that require enabled ICT experiences. The company will be represented on CABA's Board by George Li. Li is the Director of Global Partner at Huawei Enterprise Business Group, a leading global

information and communications technology (ICT) solutions provider with products and solutions deployed in over 170 countries, serving more than one third of the world's population.

In his role, Li leads the development and execution of joint innovative intelligent building and smart campus solution with Huawei's global partners, including Honeywell. The joint solution covers sensor/control, network (GPON, WiFi, eLTE, etc.), data center/cloud, platform (IoT, Big Data, etc.), application and analytics software that power both building and campus.

His primary responsibility is to lead strategic marketing, joint solution design, sales enablement and alignment at Huawei, along with partnerships on a global scale. Previously, he was the Head of the Global Cloud Partnership of Huawei IT Product Line, developing joint cloud solution with partners in automation, orchestration, marketplace and cloud management domains, and driving the joint solution sales for the global market.

He holds a Bachelor's degree with major in Computational Mathematics and Application Software from Fudan University in China, and a Master's degree in Computing Science from Simon Fraser University in Canada.

About CABA

The Continental Automated Buildings Association (CABA) is an international not-for-profit industry association dedicated to the advancement of intelligent home and intelligent building technologies. The organization is supported by an international membership of over 330 organizations involved in the design, manufacture, installation and retailing of products relating to home automation and building automation. Public organizations, including utilities and government are also members. CABA's mandate includes providing its members with networking and market research opportunities. CABA also encourages the development of industry standards and protocols, and leads cross-industry initiatives. More information is available at www.caba.org.
