

CABA Celebrates 30th Anniversary in 2019

December 14, 2018

The Continental Automated Buildings Association is proud to announce its 30th year as the world's leading not-for-profit, industry organization that promotes advanced technologies in homes and buildings. The organization will commemorate the occasion with several promotional activities and initiatives throughout 2019.

CABA is currently supported by an international membership of nearly 400 companies involved in the design, manufacture, installation and retailing of products relating to home automation and building automation.

The trade organization was established in November 1988 by like-minded private and public technology organizations that devote their time and resources to the expansion of an intelligent buildings and connected homes sector.

The initial and continuing mission of the association, as ascribed by its Board of Directors, is to encourage the development, promotion, pursuit and understanding of integrated systems and automation in homes and buildings throughout North America and the world.

CABA continues to achieve this goal by providing its members with networking and market research opportunities. The organization is a leader in developing collaborative research across industry stakeholder groups and encourages the development of standards that accelerate market development.

CABA will celebrate its 30th anniversary by holding receptions at the 2019 International Consumer Electronics Show (CES) and at 2019 AHR Expo. The social gatherings will allow CABA to express its appreciation to its membership and the industry-at-large.

The organization will also recognize influential and long-time industry leaders through special recognition awards throughout 2019.

CABA will also launch its new Smart Buildings Summit (SBS). The event, produced by AGORA, will be held from September 15 - 18, 2019 at Sawgrass Marriott Golf Resort & Spa, Florida and will create tremendous opportunities for buyers to learn about intelligent building products and services directly from top vendors within the industry space. Programming at that event will recognize and celebrate CABA's 30th anniversary. More information about the event is available at www.caba.org/sbs.

"We're extremely happy to have served the industry for the past 30 years," stated Ronald J. Zimmer, CABA President & CEO. "We are dedicated to serving the industry for many more years to come and encourage you to participate in our celebratory year and to continue to commit to CABA membership to help shape our industry's future."

About CABA

The Continental Automated Buildings Association (CABA) is an international not-for-profit industry association dedicated to the advancement of intelligent home and intelligent building technologies. The organization is supported by an international membership of nearly 400 organizations involved in the design, manufacture, installation and retailing of products relating to home automation and building automation. Public organizations, including utilities and government are also members. CABA's mandate includes providing its members with networking and market research opportunities. CABA also encourages the development of industry standards and protocols and leads cross-industry initiatives. More information is available at www.caba.org.
